

# EARLY CHILDHOOD PROGRAMS

Helping children prepare for kindergarten
Early childhood programs lead to better reasoning and language skills as well as healthy social and emotional development.

LEARNING

I can't wait for kindergarten!

I like snack time with my new friends . . . and learning my ABCs.

We read to our son every night.

GAINING NEW SKILLS

My family has a healthy dinner, we sleep better, and my kids wake up ready for a new day.

A weekly supply of milk, bread, veggies and staple items helps stretch a family's food budget.

FRESH FRUITS AND VEGGIES

PROGRAMS
Getting healthy and nutritious food to children and families

HUNGER RELIEF

Children who have regular and nutritious meals can concentrate on learning. They experience healthy growth and are less susceptible to illness and behavioral problems.

It's fun to make new friends, go on field trips and talk about our dreams for college.

We work together on science, math

and art projects.

# AFTER-SCHOOL PROGRAMS

A safe place for students to learn and have fun

Students gain self-esteem, confidence and leadership skills in a safe haven with caring adults who provide academic support and fun activities.

ACADEMIC SUPPORT

GETTING INSPIRED My mom and dad aren't home after school, so this is a safe place for me to get help with my homework.

# **MENTORING PROGRAMS**

One-on-one help to support academic and social skills

Positive, caring, consistent adult role models support children's confidence and help them realize their academic and life goals.

Meeting with my mentor once a week really helps me stay focused on my goals.

LEARN BY MODELING

My mentor is my role model; she's really taught me a lot.

We learn how to build trust and fellowship with our classmates.

My mom is happy and raising me in a loving and nurturing home.

THANK YOU
PORTLAND
FOR SUPPORTING
OUR CITY'S
CHILDREN ON
THEIR JOURNEY

I learned how to focus and direct my energy to best support my son.

I like spending time with my family and friends.

# FOSTER CARE PROGRAMS

Supporting the well-being and development of the city's most vulnerable children

Programs work with children and youth to strengthen academic and life skills and assure the presence of caring adults.

Dear Portlanders:

As residents of a city landing on top ten lists ranging from food to livability, I also like to think that we rank high in how we treat our most precious resource: our children.

Back in 2002 Portland was one of only a handful of cities to create dedicated funding to support crucial services that lead to better outcomes for kids and families.

The Portland Children's Levy does just that by helping pave a path to healthier lives and brighter futures. We invest over \$14 million a year in 69 quality and proven programs that enhance and improve the lives of kids from birth through college and beyond.

**Early Childhood:** We help ensure children arrive at kindergarten prepared to do well and that their parents are equipped to navigate the school system to maximize that success, especially recent immigrants and refugees.

**After School:** We promote academic achievement in core subject areas, along with fun and creative activities that engage students and keep them safe once the dismissal bell rings.

**Mentoring:** We provide nurturing and supportive adult and peer role models that change children's lives through higher self-esteem and confidence, and steer a student toward college and job skills training.

**Child Abuse Prevention & Intervention:** We assist vulnerable families gain coping strategies, parenting assistance and social services support to handle the stress that comes with life's challenges.

**Foster Care:** We help make possible a world where children in foster care graduate from high school at a rate equal to that of their peers and go on to succeed at college or high-paying jobs.

**Hunger Relief:** We invest in programs so that all children get the basic necessities they deserve like daily nutritious and healthy meals to help feed their brains and their bodies.

The Portland Children's Levy continues to create new and hope-filled journeys for our children and families. Your partnership makes their happy endings possible and builds a stronger city for our next generation.

Sincerely,

Dan Saltzman

Portland City Commissioner

Chair, Portland Children's Levy Allocation Committee

dan@portlandoregon.gov

### MAKING CHILDREN A PRIORITY

Prepare children for school.

Support children's success inside and outside of school.

Reduce racial and ethnic disparities in children's well-being and school success. The Portland Children's Levy grew out of a need to support services that help vulnerable children avoid negative outcomes such as:

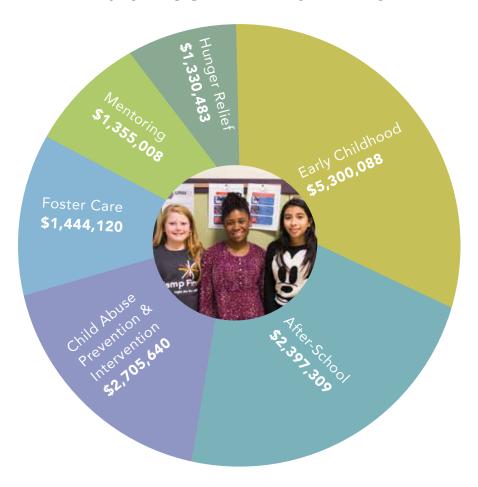

- Poor health, poor academic performance and failure to complete high school.
- Juvenile delinquency, substance abuse and teen pregnancy.
- Violent crime, including child abuse and neglect.

Since 2002, PCL programs strengthen the entire Portland community by helping thousands of children from birth through 24 reach their potential.

PCL-funded programs also empower parents and caregivers to become more invested and involved in helping their children succeed in the classroom and in life.

### 2016 PROGRAM INVESTMENTS

### **ACCOUNTABILITY**

The Portland Children's Levy is overseen by a five-member Allocation Committee that meets publicly to make funding decisions. It is composed of a Portland City Commissioner, a Multnomah County Commissioner and three citizen members appointed by the City, County and the Portland Business Alliance. The Levy has annual audits by an independent firm with results published on our website at www.portlandchildrenslevy.org. An administrative cap of 5 percent means that 95 cents of every dollar goes to proven programs. City homeowners support the Levy through a property tax of about \$60 a year for a home with an assessed value of \$150,000.

#### **CURRENT MEMBERS**
